Taylor Holding Group LTD. Title V Air Permit **Fact Sheet**

Get your questions answered.

Taylor Holding Group LTD (Taylor) is applying for a Title V Air Permit from the New York State Department of Environmental Conservation (NYSDEC) for its existing Montgomery Wallboard Processing Plant and proposed Biomass Gasification Facility to be located at the Taylor Construction and Demolition (C&D) Processing Facility at 350 Neelytown Road, Montgomery, NY.

As part of the application process, Taylor is notifying the public about this permit application and providing an opportunity for comment.

Why does Taylor need to apply for the permit? The Facility operates under an existing State Facility Air Permit. However, NYSDEC has asked Taylor to submit an application for a Title V Air Permit covering both the existing wall board processing operation and the proposed gasification facility.

How might the permit approval affect the surrounding community? The permit approval will:

- Not result in any change to the existing permitted construction and demolition (C&D) disposal operation.
- Not result in any changes to the proposed gasification facility previously approved by NYSDEC.
- Allow Taylor to convert over 1,000 tons of organic waste into 300 tons of processed biomass per day.
- Allow Taylor to produce about 20 Megawatts (MW) of power annually to the electric grid via existing substations.

Who is responsible for reviewing the permit application? The NYSDEC Region 3 office located at 21 S. Putt Corners Road, New Paltz, New York 12561, (845) 256-3000.

How can I participate in the permit review process? We want to hear from you! Please provide comments at the virtual public meetings or in writing during public comment periods. Call the Taylor contact listed below or visit the Taylor website (www.taylorbiomassenergy.com) for information on public meetings and comment period dates.

Where can I get more information about the permit application?

- Visit the repository located at the George C. Bullis Memorial Community Center, 101 Main Street, Maybrook, NY 12543
- Access the permit application materials online on the Taylor website (www.taylorbiomassenergy.com)
- Attend a virtual public meeting about the permit application
- Call or write to the Taylor contact: James Taylor Jr.
tel: (845) 457-4229 ext. 401; 350 Neelytown Road, Montgomery, NY 12549.
